Getting the best from the Fur:

1. Before wear give the fur a gentle shake to enliven the fibres after the transport.
2. Stroke gently in the direction of the fall, any areas that are still not sitting correctly.
3. Please do not spray perfume directly onto the fur or lining - this can stain because of the alcohol and the fragrance cannot be removed the fur.
4. Before and after the big event the fur will be happiest in a cooler, dark place like a wardrobe -as direct sunlight damages furs extremely quickly, especially these old ones.
